

Software Quality Engineering

Offered Through ASQ Learning Offerings

COURSE ID SQE
FORMAT Classroom

This course is for software quality specialists and engineers wishing to obtain an understanding of software quality.

This course is designed to help improve your job performance and the quality of your company's software products. It is a broad course that addresses all of the body of knowledge area of the ASQ Certified Software Quality Engineer (CSQE) Body of Knowledge. It provides a thorough introduction for those new to software quality, as well as an opportunity to fill in any blank spots for experienced personnel. Knowledge of and/or work experience within the software quality assurance field is helpful but not required. Course materials include:

1. Student notes including copies of all presentation slides and annotated descriptive text.
2. Reference materials and Web sites to aid in directing further study.
3. A detailed index and glossary to make referencing the course material easier.
