

## Agile Courses Offered by The Westfall Team

**SAFe® Product Owner/Product Manager 4.5** is a two-day official Scaled Agile course on applying a Lean-Agile mindset with SAFe to prepare for the SAFe Product Owner/Product Manager (POPM) Certification. Attendees will develop the skill sets needed to guide

the delivery of value in a Lean enterprise—and learn about the activities, tools, and mechanics used to manage backlogs and programs—by becoming a *SAFe® 4 Product Owner/Product Manager (POPM)*. During this two-day course, attendees will gain an in-depth understanding of the Agile Release Train (ART), how it delivers value, and what they can do to effectively perform their role.

They will also learn how to apply Lean thinking to write Epics, break them down into Features and Stories, plan and execute Iterations, and plan Program Increments. Finally, attendees learn about the Continuous Delivery Pipeline and DevOps culture, how to effectively integrate as Product Owners and Product Managers, and what it takes to relentlessly improve the ART.

This course is an officially licensed version of SAFe Product Owner/Product Manager 4.5 from Scaled Agile, Inc. The course registration includes:

- The course workbook, study materials, practice test and student learning plan to help students prepare for the SAFe Advanced Product Owner/Product Manager (POPM) certification
- One free attempt to take the SAFe Product Owner/Product Manager (POPM) certification test (subsequent attempts available for an additional fee) - Attendees must attend both days of the course in order to be eligible for the exam.
- One year membership to the Safe Community Platform
- Course certificate of completion

**Method of Instruction:** This course is taught through lecture, videos and interactive exercises. The emphasis is on acquiring a clear understanding of SAFe® concepts and methods so attendees can transition the skills learned in this course to their own teams and work environments.

**Learning Goals:** To perform the role of a SAFe® Product Owner/Product Manager, attendees should be able to:

- Apply SAFe in the Lean enterprise
- Connect SAFe Lean-Agile principles and values to the PO/PM roles
- Collaborate with Lean Portfolio Management
- Explore continuous value with Program Increment Planning
- Execute the Program Increment and deliver continuous value
- Articulate the Product Owner and Product Manager roles
- Create a role action plan

### Topics Covered:

- Applying SAFe in the Lean enterprise
- Relating a Lean-Agile Mindset to the Product Owner and Product Manager roles
- Collaborating with Lean Portfolio Management
- Continuously explore customer needs
- Executing the Program Increment
- Defining the Product Owner/Product Manager roles and responsibilities
- Creating a Product Owner/Product Manager action plan
